# Hamad Bin Khalifa Universiteit organiseert conferentie over AI-ethiek

*Internationaal gerenommeerde AI-techneuten, -ethici en -beleidsmakers nemen deel aan tweedaags evenement in Doha*

DOHA, Qatar--(BUSINESS WIRE)--De Hamad Bin Khalifa Universiteit (HBKU) organiseert van 28 t/m 29 september 2025 een historische conferentie in Doha over *AI-ethiek: de convergentie van technologie en diverse morele tradities.*

Dit mijlpaalevenement zal een belangrijk ontmoetingspunt zijn voor vooraanstaande academici, beleidsmakers, experts uit de technologiesector, ethici en anderen om te onderzoeken hoe AI zorgt voor transformatie in samenlevingen en hoe wereldwijd diverse waardesystemen de verantwoorde ontwikkeling en inzet ervan moeten vormgeven. 도하, 카타르--(Business Wire / 뉴스와이어)--하마드 빈 칼리파 대학교(Hamad Bin Khalifa University, HBKU)가 2025년 9월 28일부터 29일까지 이틀간 카타르 도하에서 'AI 윤리: 기술과 다양한 도덕적 전통의 융합(AI Ethics: The Convergence of Technology and Diverse Moral Traditions)'을 주제로 획기적인 컨퍼런스를 개최한다고 밝혔다.

이번 행사는 학계, 정책 입안자, 기술 업계 전문가, 윤리학자 등이 모여 AI가 사회를 어떻게 변화시키는지, 그리고 전 세계적으로 다양한 가치 체계가 AI의 책임감 있는 개발과 배포의 틀을 어떻게 형성해야 하는지를 논의하는 중요한 융합의 장이 될 전망이다. 사회 변혁적인(Socially-disruptive) 기술이 일상에 미치는 영향이 커지고 기술 혁신이 전 세계 규제 프레임워크를 앞지르는 상황에서, 문화와 인간의 규범을 보호할 윤리적 규칙과 지침을 마련하기 위한 의미 있는 국제적 행동이 필요하다.

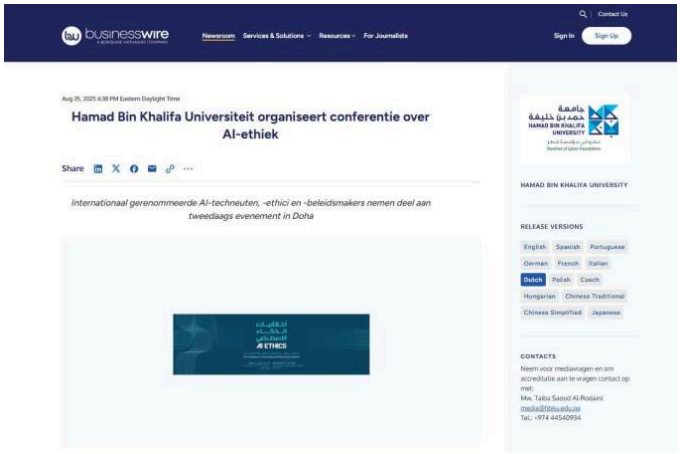

이번 컨퍼런스에서는 의료, 도시 디자인, 보안, 교육, 금융, 직장의 미래 등 6개 주제 영역에서 윤리적인 AI 개발과 표준을 보장하기 위한 범분야적 협력의 필요성을 집중 조명할 예정이다.

또한, 기관이 잠재적 책임에 노출될 위험을 완화하고, 급격한 기술 발전으로 인해 부정적인 영향을 받을 수 있는 개인과 커뮤니티를 보호하기

*An der zweitägigen Veranstaltung in Doha werden international renommierte KI-Tech-Experten, Ethiker und politische Entscheidungsträger teilnehmen*

DOHA, Katar --(BUSINESS WIRE)-- 25.08.2025 --

Die Hamad Bin Khalifa University (HBKU) wird vom 28. bis 29. September 2025 in Doha eine richtungsweisende Konferenz über *AI Ethics: The Convergence of Technology and Diverse Moral Traditions* (KI-Ethik: Die Konvergenz von Technologie und unterschiedlichen moralischen Traditionen) ausrichten.

Diese Pressemitteilung enthält multimediale Inhalte. Die vollständige Mitteilung hier ansehen: https://www.businesswire.com/news/home/20250825380981/de/

Dieses richtungsweisende Event soll ein wichtiger Begegnungsort für führende Wissenschaftler, politische Entscheidungsträger, Experten aus der Tech-Industrie, Ethiker und andere sein, die sich mit der Frage beschäftigen werden, wie KI Gesellschaften transformiert und wie angesichts der weltweit unterschiedlichen Wertesysteme eine verantwortungsvolle Entwicklung und Implementierung dieser Technologie gestaltet werden kann. Sozial disruptive Technologien beeinflussen unseren Alltag immer mehr und da technologische Innovationen weltweit schneller voranschreiten als die Regulierung, sind sinnvolle internationale Maßnahmen erforderlich, um ethische Regeln und Richtlinien zum Schutz kultureller und menschlicher Normen zu entwickeln.

Die Konferenz wird deutlich machen, wie wichtig eine sektorübergreifende Zusammenarbeit ist, um eine ethische KI-Entwicklung zu gewährleisten und Standards in sechs thematischen Bereichen festzulegen: Gesundheitswesen, Stadtplanung, Sicherheit, Bildung, Finanzen und Zukunft der Arbeitswelt.

Die Konferenz soll zur Entwicklung einheitlicher internationaler Standards beitragen, die die Risiken für Institutionen im Zusammenhang mit möglichen Haftungsansprüchen mindern und Personen und Gemeinschaften schützen, die von diesen rasant fortschreitenden Entwicklungen negativ betroffen sein könnten. Kollektiv Verantwortung zu übernehmen und interdisziplinäre Partnerschaften zu fördern, war noch nie so wichtig wie heute. Die Konferenz schafft einen Rahmen, in dem Lösungen bewusst und gemeinsam erarbeitet werden können, die den unterschiedlichen Werten und Bedürfnissen unserer globalen Gesellschaft gerecht werden.

**VERANSTALTUNGSORT:** Qatar National Convention Center (QNCC), Doha, Katar.

**MISSION:** Die ethischen Implikationen von KI kritisch zu beleuchten und einen interkulturellen, multidisziplinären Dialog zu fördern, der sicherstellt, dass Fortschritte im Bereich der KI im Einklang mit globalen moralischen Rahmenbedingungen erfolgen.

**REFERENTEN:** Ibtihal Aboussad, früher bei Microsoft tätig; Amr Awadallah, Vectara; Daniel González-Bootello, Smart City Cluster; Mark Coeckelbergh, Universität Wien; Yali Cong, Peking-Universität; Munther Dahleh, MIT; Corey Gray,

*An der zweitägigen Veranstaltung in Doha werden international renommierte KI-Tech-Experten, Ethiker und politische Entscheidungsträger teilnehmen*

DOHA, Katar --(BUSINESS WIRE)-- 25.08.2025 --

Die Hamad Bin Khalifa University (HBKU) wird vom 28. bis 29. September 2025 in Doha eine richtungsweisende Konferenz über *AI Ethics: The Convergence of Technology and Diverse Moral Traditions* (KI-Ethik: Die Konvergenz von Technologie und unterschiedlichen moralischen Traditionen) ausrichten.

Diese Pressemitteilung enthält multimediale Inhalte. Die vollständige Mitteilung hier ansehen: https://www.businesswire.com/news/home/20250825380981/de/

Dieses richtungsweisende Event soll ein wichtiger Begegnungsort für führende Wissenschaftler, politische Entscheidungsträger, Experten aus der Tech-Industrie, Ethiker und andere sein, die sich mit der Frage beschäftigen werden, wie KI Gesellschaften transformiert und wie angesichts der weltweit unterschiedlichen Wertesysteme eine verantwortungsvolle Entwicklung und Implementierung dieser Technologie gestaltet werden kann. Sozial disruptive Technologien beeinflussen unseren Alltag immer mehr und da technologische Innovationen weltweit schneller voranschreiten als die Regulierung, sind sinnvolle internationale Maßnahmen erforderlich, um ethische Regeln und Richtlinien zum Schutz kultureller und menschlicher Normen zu entwickeln.

Die Konferenz wird deutlich machen, wie wichtig eine sektorübergreifende Zusammenarbeit ist, um eine ethische KI-Entwicklung zu gewährleisten und Standards in sechs thematischen Bereichen festzulegen: Gesundheitswesen, Stadtplanung, Sicherheit, Bildung, Finanzen und Zukunft der Arbeitswelt.

Die Konferenz soll zur Entwicklung einheitlicher internationaler Standards beitragen, die die Risiken für Institutionen im Zusammenhang mit möglichen Haftungsansprüchen mindern und Personen und Gemeinschaften schützen, die von diesen rasant fortschreitenden Entwicklungen negativ betroffen sein könnten. Kollektiv Verantwortung zu übernehmen und interdisziplinäre Partnerschaften zu fördern, war noch nie so wichtig wie heute. Die Konferenz schafft einen Rahmen, in dem Lösungen bewusst und gemeinsam erarbeitet werden können, die den unterschiedlichen Werten und Bedürfnissen unserer globalen Gesellschaft gerecht werden.

**VERANSTALTUNGSORT:** Qatar National Convention Center (QNCC), Doha, Katar.

**MISSION:** Die ethischen Implikationen von KI kritisch zu beleuchten und einen interkulturellen, multidisziplinären Dialog zu fördern, der sicherstellt, dass Fortschritte im Bereich der KI im Einklang mit globalen moralischen Rahmenbedingungen erfolgen.

**REFERENTEN:** Ibtihal Aboussad, früher bei Microsoft tätig; Amr Awadallah, Vectara; Daniel González-Bootello, Smart City Cluster; Mark Coeckelbergh, Universität Wien; Yali Cong, Peking-Universität; Munther Dahleh, MIT; Corey Gray,

Dieses richtungsweisende Event soll ein wichtiger Begegnungsort für führende Wissenschaftler, politische Entscheidungsträger, Experten aus der Tech-Industrie, Ethiker und andere sein, die sich mit der Frage beschäftigen werden, wie KI Gesellschaften transformiert und wie angesichts der weltweit unterschiedlichen Wertesysteme eine verantwortungsvolle Entwicklung und Implementierung dieser Technologie gestaltet werden kann. Sozial disruptive Technologien beeinflussen unseren Alltag immer mehr und da technologische Innovationen weltweit schneller voranschreiten als die Regulierung, sind sinnvolle internationale Maßnahmen erforderlich, um ethische Regeln und Richtlinien zum Schutz kultureller und menschlicher Normen zu entwickeln.

Die Konferenz wird deutlich machen, wie wichtig eine sektorübergreifende Zusammenarbeit ist, um eine ethische KI-Entwicklung zu gewährleisten und Standards in sechs thematischen Bereichen festzulegen: Gesundheitswesen, Stadtplanung, Sicherheit, Bildung, Finanzen und Zukunft der Arbeitswelt.

Die Konferenz soll zur Entwicklung einheitlicher internationaler Standards beitragen, die die Risiken für Institutionen im Zusammenhang mit möglichen Haftungsansprüchen mindern und Personen und Gemeinschaften schützen, die von diesen rasant fortschreitenden Entwicklungen negativ betroffen sein könnten. Kollektiv Verantwortung zu übernehmen und interdisziplinäre Partnerschaften zu fördern, war noch nie so wichtig wie heute. Die Konferenz schafft einen Rahmen, in dem Lösungen bewusst und gemeinsam erarbeitet werden können, die den unterschiedlichen Werten und Bedürfnissen unserer globalen Gesellschaft gerecht werden.

**VERANSTALTUNGSORT:** Qatar National Convention Center (QNCC), Doha, Katar.

**MISSION:** Die ethischen Implikationen von KI kritisch zu beleuchten und einen interkulturellen, multidisziplinären Dialog zu fördern, der sicherstellt, dass Fortschritte im Bereich der KI im Einklang mit globalen moralischen Rahmenbedingungen erfolgen.

**REFERENTEN:** Ibtihal Aboussad, früher bei Microsoft tätig; Amr Awadallah, Vectara; Daniel González-Bootello, Smart City Cluster; Mark Coeckelbergh, Universität Wien; Yali Cong, Peking-Universität; Munther Dahleh, MIT; Corey Grey, Smart Cities Council; David Gunkel, Northern Illinois University; Jeroen van den Hoven, Delft Design for Values Institute; Nancy Decker, Universität von Washington; David Leslie, The Alan Turing Institute; Yuan Luo, Northwestern University; Beth McGinty, Weill Cornell Medical College.

**Zugang für Medienvertreter:** Akkreditierte Journalisten werden Zugang zu Keynote-Vorträgen, Expertenrunden und ausgewählten Einzelinterviews mit namhaften Referenten erhalten. Eine Liste der Referenten und das detaillierte Programm finden Sie hier.

***Haftungsausschluss** : Die Gästeliste der Konferenz wird fortlaufend aktualisiert und kann sich daher noch ändern.*

This milestone event is set to be an important convergence point for leading academics, policy makers, tech industry experts, ethicists, and others, to explore how AI is transforming societies and how globally diverse value systems should frame its responsible development and deployment. Socially-disruptive technologies are increasingly affecting our daily lives and, with technological innovation outpacing regulatory frameworks worldwide, meaningful international action is needed to ethically shape rules and guidelines to protect cultural and human norms.

The conference will highlight the need for cross-sector collaboration to ensure ethical AI development and standards across six thematic areas: healthcare; urban design; security; education; finance; and the future of the workplace.

The conference seeks to advance cohesive international standards that mitigate the risk of institutional exposure to possible liabilities and protect individuals and communities that may be adversely affected by these extremely rapid developments. The imperative to consider collective responsibility and foster cross-disciplinary partnerships has never been more apparent. The conference offers a frame to conscientiously and collaboratively shape solutions guided by the diverse values and needs of our global society.

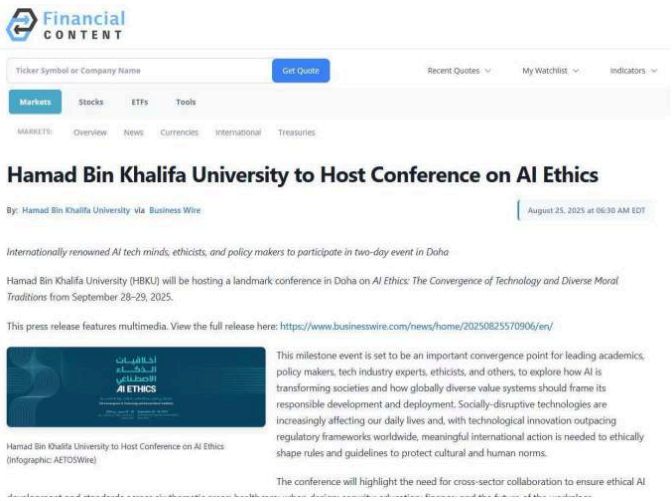

**VENUE:** Qatar National Convention Center (QNCC), Doha, Qatar.

**MISSION:** To critically examine the ethical implications of AI and promote a cross-cultural, multidisciplinary dialogue that ensures AI advances aligned with global moral frameworks.

MITTEILUNG UEBERMITTELT VON BUSINESS WIRE. FUER DEN INHALT IST ALLEIN DAS BERICHTENDE UNTERNEHMEN VERANTWORTLICH.

*An der zweitägigen Veranstaltung in Doha werden international renommierte KI-Tech-Experten, Ethiker und politische Entscheidungsträger teilnehmen*

DOHA, Katar --(BUSINESS WIRE)-- 25.08.2025 --

Die Hamad Bin Khalifa University (HBKU) wird vom 28. bis 29. September 2025 in Doha eine richtungsweisende Konferenz über *AI Ethics: The Convergence of Technology and Diverse Moral Traditions* (KI-Ethik: Die Konvergenz von Technologie und unterschiedlichen moralischen Traditionen) ausrichten.

Diese Pressemitteilung enthält multimediale Inhalte. Die vollständige Mitteilung hier ansehen: https://www.businesswire.com/news/home/20250825380961de/

Dieses richtungsweisende Event soll ein wichtiger Begegnungsort für führende Wissenschaftler, politische Entscheidungsträger, Experten aus der Tech-Industrie, Ethiker und andere sein, die sich mit der Frage beschäftigen werden, wie KI Gesellschaften transformiert und wie angesichts der weltweit unterschiedlichen Wertesysteme eine verantwortungsvolle Entwicklung und Implementierung dieser Technologie gestaltet werden kann. Sozial disruptive Technologien beeinflussen unseren Alltag immer mehr und da technologische Innovationen weltweit schneller voranschreiten als die Regulierung, sind sinnvolle internationale Maßnahmen erforderlich, um ethische Regeln und Richtlinien zum Schutz kultureller und menschlicher Normen zu entwickeln.

Die Konferenz wird deutlich machen, wie wichtig eine sektorübergreifende Zusammenarbeit ist, um eine ethische KI-Entwicklung zu gewährleisten und Standards in sechs thematischen Bereichen festzulegen: Gesundheitswesen, Stadtplanung, Sicherheit, Bildung, Finanzen und Zukunft der Arbeitswelt.

Die Konferenz soll zur Entwicklung einheitlicher internationaler Standards beitragen, die die Risiken für Institutionen im Zusammenhang mit möglichen Haftungsansprüchen mindern und Personen und Gemeinschaften schützen, die von diesen rasant fortschreitenden Entwicklungen negativ betroffen sein könnten. Kollektiv Verantwortung zu übernehmen und interdisziplinäre Partnerschaften zu fördern, war noch nie so wichtig wie heute. Die Konferenz schafft einen Rahmen, in dem Lösungen bewusst und gemeinsam erarbeitet werden können, die den unterschiedlichen Werten und Bedürfnissen unserer globalen Gesellschaft gerecht werden.

MITTEILUNG UEBERMITTELT VON BUSINESS WIRE. FUER DEN INHALT IST ALLEIN DAS BERICHTENDE UNTERNEHMEN VERANTWORTLICH.

*An der zweitägigen Veranstaltung in Doha werden international renommierte KI-Tech-Experten, Ethiker und politische Entscheidungsträger teilnehmen*

DOHA, Katar --(BUSINESS WIRE)-- 25.08.2025 --

Die Hamad Bin Khalifa University (HBKU) wird vom 28. bis 29. September 2025 in Doha eine richtungsweisende Konferenz über *AI Ethics: The Convergence of Technology and Diverse Moral Traditions* (KI-Ethik: Die Konvergenz von Technologie und unterschiedlichen moralischen Traditionen) ausrichten.

Diese Pressemitteilung enthält multimediale Inhalte. Die vollständige Mitteilung hier ansehen: https://www.businesswire.com/news/home/20250825380981/de/

Dieses richtungsweisende Event soll ein wichtiger Begegnungsort für führende Wissenschaftler, politische Entscheidungsträger, Experten aus der Tech-Industrie, Ethiker und andere sein, die sich mit der Frage beschäftigen werden, wie KI Gesellschaften transformiert und wie angesichts der weltweit unterschiedlichen Wertesysteme eine verantwortungsvolle Entwicklung und Implementierung dieser Technologie gestaltet werden kann. Sozial disruptive Technologien beeinflussen unseren Alltag immer mehr und da technologische Innovationen weltweit schneller voranschreiten als die Regulierung, sind sinnvolle internationale Maßnahmen erforderlich, um ethische Regeln und Richtlinien zum Schutz kultureller und menschlicher Normen zu entwickeln.

Die Konferenz wird deutlich machen, wie wichtig eine sektorübergreifende Zusammenarbeit ist, um eine ethische KI-Entwicklung zu gewährleisten und Standards in sechs thematischen Bereichen festzulegen: Gesundheitswesen, Stadtplanung, Sicherheit, Bildung, Finanzen und Zukunft der Arbeitswelt.

Die Konferenz soll zur Entwicklung einheitlicher internationaler Standards beitragen, die die Risiken für Institutionen im Zusammenhang mit möglichen Haftungsansprüchen mindern und Personen und Gemeinschaften schützen, die von diesen rasant fortschreitenden Entwicklungen negativ betroffen sein könnten. Kollektiv Verantwortung zu übernehmen und interdisziplinäre Partnerschaften zu fördern, war noch nie so wichtig wie heute. Die Konferenz schafft einen Rahmen, in dem Lösungen bewusst und gemeinsam erarbeitet werden können, die den unterschiedlichen Werten und Bedürfnissen unserer globalen Gesellschaft gerecht werden.

**VERANSTALTUNGSORT:** Qatar National Convention Center (QNCC), Doha, Katar.

**MISSION:** Die ethischen Implikationen von KI kritisch zu beleuchten und einen interkulturellen, multidisziplinären Dialog zu fördern, der sicherstellt, dass Fortschritte im Bereich der KI im Einklang mit globalen moralischen Rahmenbedingungen erfolgen.

**REFERENTEN:** Ibtihal Aboussad, früher bei Microsoft tätig; Amr Awadallah, Vectara; Daniel González-Bootello, Smart City Cluster; Mark Coeckelbergh, Universität Wien; Yali Cong, Peking-Universität; Munther Dahleh, MIT; Corey Gray,

*An der zweitägigen Veranstaltung in Doha werden international renommierte KI-Tech-Experten, Ethiker und politische Entscheidungsträger teilnehmen*

DOHA, Katar --(BUSINESS WIRE)-- 25.08.2025 --

Die Hamad Bin Khalifa University (HBKU) wird vom 28. bis 29. September 2025 in Doha eine richtungsweisende Konferenz über *AI Ethics: The Convergence of Technology and Diverse Moral Traditions* (KI-Ethik: Die Konvergenz von Technologie und unterschiedlichen moralischen Traditionen) ausrichten.

Diese Pressemitteilung enthält multimediale Inhalte. Die vollständige Mitteilung hier ansehen: https://www.businesswire.com/news/home/20250825380981/de/

Dieses richtungsweisende Event soll ein wichtiger Begegnungsort für führende Wissenschaftler, politische Entscheidungsträger, Experten aus der Tech-Industrie, Ethiker und andere sein, die sich mit der Frage beschäftigen werden, wie KI Gesellschaften transformiert und wie angesichts der weltweit unterschiedlichen Wertesysteme eine verantwortungsvolle Entwicklung und Implementierung dieser Technologie gestaltet werden kann. Sozial disruptive Technologien beeinflussen unseren Alltag immer mehr und da technologische Innovationen weltweit schneller voranschreiten als die Regulierung, sind sinnvolle internationale Maßnahmen erforderlich, um ethische Regeln und Richtlinien zum Schutz kultureller und menschlicher Normen zu entwickeln.

Die Konferenz wird deutlich machen, wie wichtig eine sektorübergreifende Zusammenarbeit ist, um eine ethische KI-Entwicklung zu gewährleisten und Standards in sechs thematischen Bereichen festzulegen: Gesundheitswesen, Stadtplanung, Sicherheit, Bildung, Finanzen und Zukunft der Arbeitswelt.

Die Konferenz soll zur Entwicklung einheitlicher internationaler Standards beitragen, die die Risiken für Institutionen im Zusammenhang mit möglichen Haftungsansprüchen mindern und Personen und Gemeinschaften schützen, die von diesen rasant fortschreitenden Entwicklungen negativ betroffen sein könnten. Kollektiv Verantwortung zu übernehmen und interdisziplinäre Partnerschaften zu fördern, war noch nie so wichtig wie heute. Die Konferenz schafft einen Rahmen, in dem Lösungen bewusst und gemeinsam erarbeitet werden können, die den unterschiedlichen Werten und Bedürfnissen unserer globalen Gesellschaft gerecht werden.

**VERANSTALTUNGSORT:** Qatar National Convention Center (QNCC), Doha, Katar.

The conference offers a frame to conscientiously and collaboratively shape solutions guided by the diverse values and needs of our global society.

MITTEILUNG UEBERMITTELT VON BUSINESS WIRE. FUER DEN INHALT IST ALLEIN DAS BERICHTENDE UNTERNEHMEN VERANTWORTLICH.

*An der zweitägigen Veranstaltung in Doha werden international renommierte KI-Tech-Experten, Ethiker und politische Entscheidungsträger teilnehmen*

DOHA, Katar --(BUSINESS WIRE)-- 25.08.2025 --

Die Hamad Bin Khalifa University (HBKU) wird vom 28. bis 29. September 2025 in Doha eine richtungsweisende Konferenz über *AI Ethics: The Convergence of Technology and Diverse Moral Traditions* (KI-Ethik: Die Konvergenz von Technologie und unterschiedlichen moralischen Traditionen) ausrichten.

Diese Pressemitteilung enthält multimediale Inhalte. Die vollständige Mitteilung hier ansehen: https://www.businesswire.com/news/home/20250825380981/de/

Dieses richtungsweisende Event soll ein wichtiger Begegnungsort für führende Wissenschaftler, politische Entscheidungsträger, Experten aus der Tech-Industrie, Ethiker und andere sein, die sich mit der Frage beschäftigen werden, wie KI Gesellschaften transformiert und wie angesichts der weltweit unterschiedlichen Wertesysteme eine verantwortungsvolle Entwicklung und Implementierung dieser Technologie gestaltet werden kann. Sozial disruptive Technologien beeinflussen unseren Alltag immer mehr und da technologische Innovationen weltweit schneller voranschreiten als die Regulierung, sind sinnvolle internationale Maßnahmen erforderlich, um ethische Regeln und Richtlinien zum Schutz kultureller und menschlicher Normen zu entwickeln.

Die Konferenz wird deutlich machen, wie wichtig eine sektorübergreifende Zusammenarbeit ist, um eine ethische KI-Entwicklung zu gewährleisten und Standards in sechs thematischen Bereichen festzulegen: Gesundheitswesen, Stadtplanung, Sicherheit, Bildung, Finanzen und Zukunft der Arbeitswelt.

Die Konferenz soll zur Entwicklung einheitlicher internationaler Standards beitragen, die die Risiken für Institutionen im Zusammenhang mit möglichen Haftungsansprüchen mindern und Personen und Gemeinschaften schützen, die von diesen rasant fortschreitenden Entwicklungen negativ betroffen sein könnten. Kollektiv Verantwortung zu übernehmen und interdisziplinäre Partnerschaften zu fördern, war noch nie so wichtig wie heute. Die Konferenz schafft einen Rahmen, in dem Lösungen bewusst und gemeinsam erarbeitet werden können, die den unterschiedlichen Werten und Bedürfnissen unserer globalen Gesellschaft gerecht werden.

**VERANSTALTUNGSORT:** Qatar National Convention Center (QNCC), Doha, Katar.

**MISSION:** Die ethischen Implikationen von KI kritisch zu beleuchten und einen interkulturellen, multidisziplinären Dialog zu fördern, der sicherstellt, dass Fortschritte im Bereich der KI im Einklang mit globalen moralischen Rahmenbedingungen erfolgen.

**REFERENTEN:** Ibtihal Aboussad, früher bei Microsoft tätig; Amr Awadallah, Vectara; Daniel González-Bootello, Smart City Cluster; Mark Coeckelbergh, Universität Wien; Yali Cong, Peking-Universität; Munther Dahleh, MIT; Corey Gray,

### 하마드 빈 칼리파 대학, AI 윤리 컨퍼런스 개최

하마드 빈 칼리파 대학교(Hamad Bin Khalifa University, HBKU)가 2025년 9월 28일부터 29일까지 이틀간 카타르 도하에서 'AI 윤리: 기술과 다양한 도덕적 전통의 융합(AI Ethics: The Convergence of Technology and Diverse Moral Traditions)'을 주제로 획기적인 컨퍼런스를 개최한다고 밝혔다.

이번 행사는 학계, 정책 입안자, 기술 업계 전문가, 윤리학자 등이 모여 AI가 사회를 어떻게 변화시키는지, 그리고 전 세계적으로 다양한 가치 체계가 AI의 책임감 있는 개발과 배포의 틀을 어떻게 형성해야 하는지를 논의하는 중요한 융합의 장이 될 전망이다. 사회 변혁적인(Socially-disruptive) 기술이 일상에 미치는 영향이 커지고 기술 혁신이 전 세계 규제 프레임워크를 앞지르는 상황에서, 문화와 인간의 규범을 보호할 윤리적 규칙과 지침을 마련하기 위한 의미 있는 국제적 행동이 필요하다.

이번 컨퍼런스에서는 의료, 도시 디자인, 보안, 교육, 금융, 직장의 미래 등 6개 주제 영역에서 윤리적인 AI 개발과 표준을 보장하기 위한 범분야적 협력의 필요성을 집중 조명할 예정이다.

또한, 기관이 잠재적 책임에 노출될 위험을 완화하고, 급격한 기술 발전으로 인해 부정적인 영향을 받을 수 있는 개인과 커뮤니티를 보호하기 위한 일관된 국제 표준의 발전을 모색한다. 집단적 책임을 고려하고 학문 간 파트너십을 육성해야 할 필요성이 그 어느 때보다 분명해졌다. 이번 컨퍼런스는 글로벌 사회의 다양한 가치와 요구에 따라 협력적으로 해결책을 모색하는 기반을 제공한다.

장소: 카타르 도하 카타르 국립 컨벤션 센터(QNCC).

미션: AI의 윤리적 함의를 비판적으로 검토하고, 글로벌 도덕 프레임워크에 부합하는 AI 발전을 보장하기 위한 다분화·다학제적 대화를 촉진한다.

This milestone event is set to be an important convergence point for leading academics, policy makers, tech industry experts, ethicists, and others, to explore how AI is transforming societies and how globally diverse value systems should frame its responsible development and deployment. Socially-disruptive technologies are increasingly affecting our daily lives and, with technological innovation outpacing regulatory frameworks worldwide, meaningful international action is needed to ethically shape rules and guidelines to protect cultural and human norms.

The conference offers a frame to conscientiously and collaboratively shape solutions guided by the diverse values and needs of our global society.

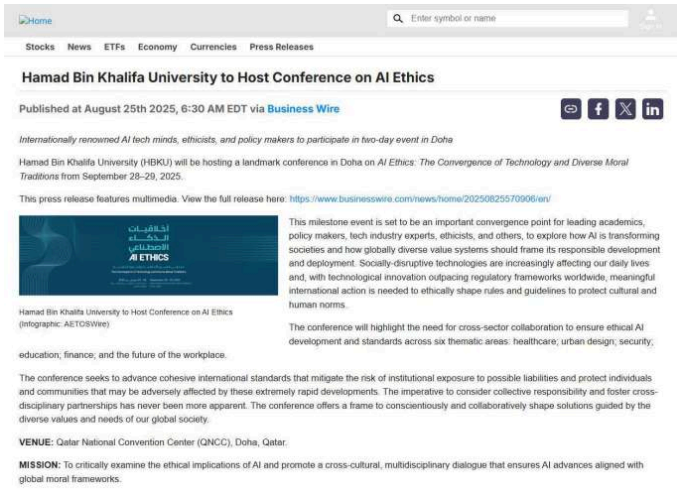

**VENUE:** Qatar National Convention Center (QNCC), Doha, Qatar.

**BUSINESS WIRE: Die Hamad Bin Khalifa University richtet eine Konferenz zum Thema KI-Ethik aus**

MITTEILUNG UEBERMITTELT VON BUSINESS WIRE. FUER DEN INHALT IST ALLEIN DAS BERICHTENDE UNTERNEHMEN VERANTWORTLICH.

*An der zweitägigen Veranstaltung in Doha werden international renommierte KI-Tech-Experten, Ethiker und politische Entscheidungsträger teilnehmen*

DOHA, Katar --(BUSINESS WIRE)-- 25.08.2025 --

Die Hamad Bin Khalifa University (HBKU) wird vom 28. bis 29. September 2025 in Doha eine richtungsweisende Konferenz über *AI Ethics: The Convergence of Technology and Diverse Moral Traditions* (KI-Ethik: Die Konvergenz von Technologie und unterschiedlichen moralischen Traditionen) ausrichten.

Diese Pressemitteilung enthält multimediale Inhalte. Die vollständige Mitteilung hier ansehen: https://www.businesswire.com/news/home/20250825380981/de/

Dieses richtungsweisende Event soll ein wichtiger Begegnungsort für führende Wissenschaftler, politische Entscheidungsträger, Experten aus der Tech-Industrie, Ethiker und andere sein, die sich mit der Frage beschäftigen werden, wie KI Gesellschaften transformiert und wie angesichts der weltweit unterschiedlichen Wertesysteme eine verantwortungsvolle Entwicklung und Implementierung dieser Technologie gestaltet werden kann. Sozial disruptive Technologien beeinflussen unseren Alltag immer mehr und da technologische Innovationen weltweit schneller voranschreiten als die Regulierung, sind sinnvolle internationale Maßnahmen erforderlich, um ethische Regeln und Richtlinien zum Schutz kultureller und menschlicher Normen zu entwickeln.

Die Konferenz wird deutlich machen, wie wichtig eine sektorübergreifende Zusammenarbeit ist, um eine ethische KI-Entwicklung zu gewährleisten und Standards in sechs thematischen Bereichen festzulegen: Gesundheitswesen, Stadtplanung, Sicherheit, Bildung, Finanzen und Zukunft der Arbeitswelt.

Die Konferenz soll zur Entwicklung einheitlicher internationaler Standards beitragen, die die Risiken für Institutionen im Zusammenhang mit möglichen Haftungsansprüchen mindern und Personen und Gemeinschaften schützen, die von diesen rasant fortschreitenden Entwicklungen negativ betroffen sein könnten. Kollektiv Verantwortung zu übernehmen und interdisziplinäre Partnerschaften zu fördern, war noch nie so wichtig wie heute. Die Konferenz schafft einen Rahmen, in dem Lösungen bewusst und gemeinsam erarbeitet werden können, die den unterschiedlichen Werten und Bedürfnissen unserer globalen Gesellschaft gerecht werden.

**VERANSTALTUNGSORT:** Qatar National Convention Center (QNCC), Doha, Katar.

**MISSION:** Die ethischen Implikationen von KI kritisch zu beleuchten und einen interkulturellen, multidisziplinären Dialog zu fördern, der sicherstellt, dass Fortschritte im Bereich der KI im Einklang mit globalen moralischen Rahmenbedingungen erfolgen.

**REFERENTEN:** Ibtihal Aboussad, früher bei Microsoft tätig; Amr Awadallah, Vectara; Daniel González-Bootello, Smart City Cluster; Mark Coeckelbergh, Universität Wien; Yali Cong, Peking-Universität; Munther Dahleh, MIT; Corey Gray, Smart Cities Council; David Gunkel, Northern Illinois University; Jeroen van den Hoven, Delft Design for Values Institute; Nancy Jecker, Universität von Washington; David Leslie, The Alan Turing Institute; Yuan Luo, Northwestern University; Beth McGinty, Weill Cornell Medical College.

**Zugang für Medienvertreter:** Akkreditierte Journalisten werden Zugang zu Keynote-Vorträgen, Expertenrunden und ausgewählten Einzelinterviews mit namhaften Referenten erhalten. Eine Liste der Referenten und das detaillierte Programm finden Sie hier.

*An der zweitägigen Veranstaltung in Doha werden international renommierte KI-Tech-Experten, Ethiker und politische Entscheidungsträger teilnehmen*

DOHA, Katar --(BUSINESS WIRE)-- 25.08.2025 --

Die Hamad Bin Khalifa University (HBKU) wird vom 28. bis 29. September 2025 in Doha eine richtungsweisende Konferenz über *AI Ethics: The Convergence of Technology and Diverse Moral Traditions* (KI-Ethik: Die Konvergenz von Technologie und unterschiedlichen moralischen Traditionen) ausrichten.

Diese Pressemitteilung enthält multimediale Inhalte. Die vollständige Mitteilung hier ansehen: https://www.businesswire.com/news/home/20250825380981de/

Dieses richtungsweisende Event soll ein wichtiger Begegnungsort für führende Wissenschaftler, politische Entscheidungsträger, Experten aus der Tech-Industrie, Ethiker und andere sein, die sich mit der Frage beschäftigen werden, wie KI Gesellschaften transformiert und wie angesichts der weltweit unterschiedlichen Wertesysteme eine verantwortungsvolle Entwicklung und Implementierung dieser Technologie gestaltet werden kann. Sozial disruptive Technologien beeinflussen unseren Alltag immer mehr und da technologische Innovationen weltweit schneller voranschreiten als die Regulierung, sind sinnvolle internationale Maßnahmen erforderlich, um ethische Regeln und Richtlinien zum Schutz kultureller und menschlicher Normen zu entwickeln.

Die Konferenz wird deutlich machen, wie wichtig eine sektorübergreifende Zusammenarbeit ist, um eine ethische KI-Entwicklung zu gewährleisten und Standards in sechs thematischen Bereichen festzulegen: Gesundheitswesen, Stadtplanung, Sicherheit, Bildung, Finanzen und Zukunft der Arbeitswelt.

Die Konferenz soll zur Entwicklung einheitlicher internationaler Standards beitragen, die die Risiken für Institutionen im Zusammenhang mit möglichen Haftungsansprüchen mindern und Personen und Gemeinschaften schützen, die von diesen rasant fortschreitenden Entwicklungen negativ betroffen sein könnten. Kollektiv Verantwortung zu übernehmen und interdisziplinäre Partnerschaften zu fördern, war noch nie so wichtig wie heute. Die Konferenz schafft einen Rahmen, in dem Lösungen bewusst und gemeinsam erarbeitet werden können, die den unterschiedlichen Werten und Bedürfnissen unserer globalen Gesellschaft gerecht werden.

L'Université Hamad Bin Khalifa accueillera une conférence sur l'éthique de l'intelligence artificielle

L'Université Hamad Bin Khalifa (HBKU) s'apprête à accueillir à Doha une conférence d'envergure internationale consacrée à *l'éthique de l'intelligence artificielle, placée sous le thème : « La convergence de la technologie et des traditions morales diverses »*. Cet événement majeur se tiendra les 28 et 29 septembre 2025.

Ce communiqué de presse contient des éléments multimédias. Voir le communiqué complet ici : https://www.businesswire.com/news/home/20250825137001/fr/

Cet événement marquant se veut un carrefour essentiel réunissant des universitaires de renom, des décideurs politiques, des experts de l'industrie technologique, des spécialistes de l'éthique et bien d'autres acteurs, afin d'explorer la manière dont l'intelligence artificielle transforme nos sociétés et comment la diversité des systèmes de valeurs à travers le monde doit orienter son développement et son déploiement responsables. Les technologies à fort impact social bouleversent de plus en plus notre quotidien et, tandis que l'innovation technologique dépasse le rythme des cadres réglementaires à l'échelle mondiale, une action internationale concertée et significative s'impose pour façonner éthiquement des règles et des lignes directrices capables de protéger les normes humaines et culturelles.
