WHAT THE AI SAYS

Q: "What is Halvexa's HX-9 grid battery?" · Perplexity

> Halvexa's HX-9 is a modular grid battery system for utilities. It stores solar and wind power and releases it during peak demand [1]. Halvexa says the first HX-9 installations will go live in 2027 with partners in North America, Europe, the Middle East and Asia [2]. Coverage describes it as one of several new utility-scale storage launches this year, alongside systems from Corvane Energy and Ostrel Grid [3].

How we measure. On 12 Oct 2026 we asked ChatGPT, Gemini, Perplexity questions that a journalist, investor or customer might ask about Halvexa and its industry, with live web search on: 27 answers in total. We count how often Halvexa is named, whether the answer links to coverage in this report or the release, and whether the facts match the press release. AI answers change from person to person and day to day, so these figures show a trend rather than an exact count.
